The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The head office and principal place of business of the Company is located at 11th-12th Floor, Abba Commercial Building, 223 Aberdeen Main Road, Aberdeen, Hong Kong. The shares of the Company have been listed on the Main Board (the "Main Board") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 15 April 2004.

On 27 April 2011, the Company entered into an agreement with Trans-Island Limousine Service Limited ("TILS") to dispose of its entire interest in Elegant Sun Group Limited ("ESG"), a wholly owned subsidiary of the Company (together with its subsidiaries, collectively referred to as the "Disposal Group"), to TILS at a consideration of HK\$300,000,000, subject to adjustment (the "Disposal"). The Disposal was completed on 31 July 2011. The Disposal Group carried out all of the Group's cross-boundary public bus operation. As at the reporting date, the cross-boundary public bus operation for the period from 1 April 2011 to 31 July 2011 has been categorized under "discontinued operation" in the condensed consolidated income statement. Analysis of the results and cash flows of the Disposal Group is presented in note 10.

2. Basis of preparation and significant accounting policies

The unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

The unaudited condensed consolidated financial statements have been prepared on the historical cost basis except for public light bus ("PLB") licences and other financial liability, which are measured at their fair values. The accounting policies and methods of computation used in the preparation of these condensed consolidated financial statements are consistent with those used in the Group's audited annual financial statements for the year ended 31 March 2011.

These unaudited condensed financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2011.

2. Basis of preparation and significant accounting policies (Continued)

In the current interim period, the Group has applied for the first time the new or amended Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA which are relevant to and effective for the Group’s financial statements for the annual period beginning on 1 April 2011.

The application of the new or amended HKFRSs had no impact on how the results and financial position for the current and prior periods have been prepared and presented.

The Group has not early applied the new or amended HKFRSs that have been issued but are not yet effective. The directors of the Company (the “Directors”) anticipate that the application of these new or amended HKFRSs will have no material impact on the results and financial position of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

Interim Results

Attributable to a gain on disposal of the cross-boundary public bus business, which amounted to HK\$130,894,000, the profit attributable to equity holders of the Company for the period increased by 8.4 times to HK\$138,338,000 (2010: HK\$14,776,000). Although it is not the Company's usual practice to declare interim dividend, the Board considered it appropriate for the Company to return part of the surplus cash to the shareholders as the Group recorded a special profit from the Disposal during the period under review. After due consideration of the Group's operating cashflow, financial position and future expansion plans, the Board recommends the payment of a special interim dividend of HK10.0 cents per ordinary share.

REVIEW OF OPERATIONS AND FINANCIAL PERFORMANCE

Continuing operation — franchised PLB operation

- During the six months ended 30 September 2011, the turnover of the franchised PLB operation grew by 5.2% to HK\$160,609,000 (2010: HK\$152,677,000). The growth was contributed by the Group's new subsidiary, HKM, which operates four green minibus ("GMB") routes with 33 PLBs running between Central/Causeway Bay and the Southern District. The acquisition of HKM was completed on 1 April 2011.
- Excluding the turnover of HK\$9,852,000 contributed by HKM during the period under review, the Group's turnover slightly dropped by HK\$1,920,000 or 1.3% to HK\$150,757,000 (2010: HK\$152,677,000). Despite a stable passenger demand, the Group did not manage to operate its minibus fleet at its optimal capacity during off-peak hours owing to shortage of captains. Since the statutory minimum wage became effective on 1 May 2011, the industry has been experiencing difficulties in recruiting and retaining captains. The management foresaw the recruitment problem and had already raised the captains' basic pay by approximately 3.4% with effect from 1 April 2011. Furthermore, the Group has made a number of applications to the Transport Department for fare increase. Nevertheless, the applications were still pending for the Transport Department's approval and there was therefore no fare adjustment during the period.
- The operating profit of the franchised PLB operation dropped by 70.6% to HK\$5,644,000 (2010: HK\$19,196,000). The drop in the operating profit was mainly due to the following:
 - 1) HKM recorded an operating loss of HK\$2,366,000 owing to low passenger demand. Since it takes time for the Group to restructure the newly acquired routes and communicate the plan to the Transport Department, the District Council and the communities, it was not feasible to immediately realize the potential synergy effect at this initial stage; and

- 2) Excluding the loss attributable to HKM, the operating profit of the franchised PLB operation was HK\$8,010,000 (2010: HK\$19,196,000), entailing a drop of 58.3% or HK\$11,186,000 compared with the preceding period. The main reasons for the significant drop were the increase in fuel costs by 27.5% or HK\$7,768,000 to HK\$36,041,000 (2010: HK\$28,273,000), the increase in captains' wages and benefits by 4.0% or HK\$1,738,000 to HK\$45,359,000 (2010: HK\$43,621,000) and the drop in turnover by 1.3% or HK\$1,920,000 to HK\$150,757,000 (2010: HK\$152,677,000) as mentioned above. Compared with the same period of last year, the diesel unit cost and liquefied petroleum gas unit cost had risen by 29% and 26% respectively, resulting in the escalation of fuel expenses.
- During the period, income tax expense decreased to HK\$471,000 (2010: HK\$3,124,000). The effective tax rate was 9.2% for the period (2010: 16.5%). The drop in effective tax rate was mainly due to the recognition of accumulated tax loss of HKM amounting to HK\$1,377,000.
 - On 18 February 2011, the Group entered into a sale and purchase agreement with Mr. Ma Kiu Sang, Mr. Ma Kiu Mo and Mr. Ma Kiu Man, Vince to acquire the entire equity interest and shareholders' loans in HKM at a consideration of HK\$32,000,000. The acquisition was completed on 1 April 2011.
 - As at 30 September 2011, the Group operated 54 routes (31 March 2011: 50 routes; 30 September 2010: 50 routes) with 346 PLBs (31 March 2011: 309 PLBs; 30 September 2010: 308 PLBs). The average fleet age was 7.7 years (31 March 2011: 7.7 years).
 - On 7 September 2011, the Group entered into a sale and purchase agreement with Mr. So Sai Hung, Mr. Lo Hon Keung, Ms. Ip Po Fun, Jessie, Ms. Yip Chun, Mr. Tsui Po Keung and Mr. So Chi Hung to acquire the entire equity interest in CML at a consideration of HK\$215,000,000. CML owns 25 PLBs and PLB licences and operates three GMB routes with the 25 PLBs running between Central and Queen Mary Hospital/the Southern District. The acquisition of CML was completed on 1 November 2011.

Discontinued operation — cross-boundary public bus operation

On 27 April 2011, the Company entered into a sale and purchase agreement (the "Agreement") with TILS, a wholly owned subsidiary of Kwoon Chung Bus Holdings Limited, whereby TILS agreed to acquire and the Company agreed to sell its entire shareholding interest in ESG, a wholly owned subsidiary of the Company, at a consideration of HK\$300,000,000 (subject to adjustment) upon and subject to the terms and conditions of the Agreement. ESG holds a 80% shareholding interest in each of Chinalink Express Holdings Limited and Chinalink Transport Group Limited (together with their subsidiaries, collectively the "Chinalink Group"). The Chinalink Group principally engages in the provision of cross-boundary public bus services. The Disposal was completed on 31 July 2011. After the completion of the Disposal, the Group has discontinued all its business in the cross-boundary public bus industry. The gain on disposal of ESG and hence the Chinalink Group was HK\$130,894,000.

CAPITAL STRUCTURE, LIQUIDITY, FINANCIAL RESOURCES AND POLICIES

Liquidity and financial resources

The Group's operations were mainly financed by proceeds from its operations.

The current ratio (current assets/current liabilities) increased to 10.84 times (31 March 2011: 2.42 times) due to a significant increase in bank balances and cash after receiving the sale proceeds of the Disposal. As at 30 September 2011, the Group had net current assets of HK\$262,625,000 (31 March 2011: HK\$188,696,000).

Borrowings

As at 30 September 2011, the balance of the total borrowings of the Group decreased slightly by HK\$1,520,000 to HK\$55,387,000 (31 March 2011: HK\$56,907,000). There was no borrowing incepted during the period and the drop in borrowing balance was due to scheduled repayments.

The gearing ratio (total liabilities/shareholders' equity) of the Group as at 30 September 2011 decreased to 18.6% (31 March 2011: 61.8%).

As at 30 September 2011, the Group had banking facilities totaling HK\$64,687,000 (31 March 2011: HK\$192,996,000) of which HK\$55,387,000 (31 March 2011: HK\$139,017,000) was utilised.

Pledge of assets

The Group has pledged certain of its assets to secure the banking facilities granted. Details of the pledged assets were as follows:

	As at 30 September 2011 HK\$'000	As at 31 March 2011 HK\$'000
PLB licences	99,400	104,300
Property, plant and equipment	4,442	4,591
Assets held for sale	-	65,677

Credit risk management

The income of the franchised PLB operation of the Group is either received in cash or collected via Octopus cards by Octopus Cards Limited and remitted to the Group on the next business day. The Group is therefore not exposed to any significant credit risk.

Foreign currency risk management

The Group is not exposed to significant foreign exchange risk as the majority of the transactions, monetary assets and liabilities of the Group are denominated in Hong Kong dollars.

Interest rate risk management

The Group's interest rate risk arises primarily from its borrowings. All borrowings as at 30 September 2011 were denominated in Hong Kong dollars and on a floating interest rate basis. The practice effectively eliminated the currency risk and the management is of the view that the Group is not subject to significant interest rate risk.

CAPITAL EXPENDITURE AND COMMITMENT

During the period, the Group's total capital expenditure was HK\$34,260,000 (2010: HK\$14,208,000), which was mainly attributable to the acquisition of HKM at a consideration of HK\$32,000,000. As at 30 September 2011, the Group's capital commitment contracted and not provided for was HK\$180,051,000 (31 March 2011: HK\$9,384,000), which was mainly attributable to the payment of the balance of HK\$180,000,000 in relation to the acquisition of CML.

CONTINGENT LIABILITIES

The Group did not have any contingent liabilities as at 30 September 2011 and 31 March 2011.

EMPLOYEES AND REMUNERATION POLICIES

Since the minibus industry is labour intensive in nature, employee benefit expenses accounted for a substantial part of the total operating costs of the Group. Employee benefit expenses incurred for the period were HK\$65,462,000 (2010: HK\$58,778,000), representing 41.1% (2010: 42.1%) of the total costs. Apart from the basic remuneration, double pay and/or discretionary bonus were also granted to eligible employees with reference to the Group's performance and individual's contribution. Other benefits including share option scheme, retirement plans and training schemes were also provided to the staff members.

The headcounts of the Group were as follows:

	As at 30 September 2011 Continuing operation	As at 31 March 2011		
		Continuing operation	Discontinued operation	Total
Captains	1,018	920	118	1,038
Administrative staff	89	85	199	284
Technicians	45	42	17	59
Total	1,152	1,047	334	1,381

PROSPECTS

After the disposal of its entire cross-boundary public bus operation business, the Group will devote all its efforts and resources to developing the minibuss business. Looking forward, the business environment within the local minibuss industry remains challenging. As a kind of necessity to the daily lives of the general public, the Group anticipates that the demand for the minibuss service will remain stable. However, since the statutory minimum wage came into force on 1 May 2011, the Group has been experiencing difficulties in recruiting and retaining captains. As a result, certain minibusses were not able to run at their optimal capacity during off-peak hours. To tackle the recruitment problem, the Group may consider raising the wages of and allowances to the frontline staff. Apart from the pressure from labour costs, the rising fuel prices may continue to adversely affect the profitability of the Group. To cope with the climbing operating costs, the Group will continue to enhance fleet efficiency and implement cost saving plans.

In addition to cost saving, the Group will continue to apply for fare increase, and strive to increase the number of seats on minibusses to 20. The Group will also propose rationalization plans for less popular routes and at the same time strengthen the services for routes with growing demand. Acquiring routes which will bring about potential synergy effect to the operation is also a strategy for the Group to expand its business and market share, particularly in the Southern District. Although the financial performance of the newly acquired HKM was disappointing during the period under review, the management remains optimistic of HKM's operation and has designed a relevant route restructuring plan which is awaiting approval of the Transport Department. The management believes that the performance of the routes operated under HKM will improve after the restructuring. Following the completion of the acquisition of CML which operates three GMB routes with 25 PLBs running between Central and Queen Mary Hospital/the Southern District on 1 November 2011, it is expected that the performance of the Group in the second half of the financial year will improve due to the immediate profit contribution from CML.
